The Annie P. Silver passed up last night, for St. Louis, with a good trip.

The Osceoia Belle and George W. Cheek departed last evening for Osceoia.

Receipts by the river yesterday were 79 bales cotton, 40 bags seed-cotton, 236 sacks cotton-seed.

The United States coast survey boat propeller, Hitchcock, passed down yesterday for Vicksburg.

The Corona, with a barge in tow, passed down last night for New Orleans with all the freight she

St. Francis river.

The steamer Ouschita Belle, Captain Mark R. Cheek, brought in the "blue ribbon" trip of cotton last night—the biggest of the season—1259 bales of cotton, 38 bags of seed-cotton, 724 sacks of cotton-seed, 69 packages of sundries, and a good trip of passengers. She will leave this evening promptly on time for Arkansas City, A. L. Cummings in the

The James Lee.

The new steamer James Lee will be at the levee to-day and will leave on her first trip for Friars Point this evening. She is one of the handsomest and most convenient boats of her class we have ever seen. Captain James Lee, the venerable gentleman after whom she is named, is on board and will receive the congratulations of his many old friends here. Captain James Rees is in command. The following description of the boat is from the Pittsburg Dispatch: "This new and magnificent plees of architecture will take her departure for her southern home on Saturday. In the construction of this boat no expense has been spared. She is the boss boat of her size afloat, we make no exception; her model has been pronounced perfect; it would seem to be made to cheat the water of her approach, so perfect have the lines been drawn. Many persons had the idea that, having devoted so many years to the perfection of sternwheelers, that we were somewhat out of practice on sidewheelers; but, after an inspection of the Lawes Lee they will come to the lines has the were somewhat out of practice on sidewheelers; but, after an inspection of the Lawes Lee they will come to the lines like in the lines has they will come to the lines like in the lines has they will come to the lines like in the lines has they will come to the lines like in the life.

PRUSSIAN

THE LATEST VICTORY OF MEDICAL SCIENCE. The only existing remedy for every spe-

cies of Acute or Chronic Disease of

the Organs of Respiration, and an absolute SPECIFIC FOR CONSUMPTION! THIS all-powerful vegetable preparation expels from the lungs and air passages, the mucus and muco-pus produced by pulmonary inflammation, heals the frritated membranes, and renovates every organ which utilizes the breath of Life. It contains no stupefying polson, and is in all respects a healthful medicine. The rapidity and certainty with which it

ANNIHILATES A COUGH is astonishing. Its effects go deeper than the mere symptoms of pulmonary disease and discharges the cause from the system. Free and painless expectoration is the mode by which it relieves the lungs, chest and throat from the burdens which oppress them; thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer

with the most terrible scourge of our cli-mate will find Fritsch's Prussian Cough Syrup a potent ally, and will assuredly win the fight by adhering strictly to this great medicine. The CASES NOW ON RECORD in which it has been administered with entire success as a remedy for every va-ricty of malady which affects the Re-spiratory Functions, amount to more than

FIVE THOUSAND at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Cough
Remedies hitherto introduced is that
they are simply expulsory. Hence they
are useless; for unless the causes of the
acrid secretions which are coughed up
are removed, and the ruptured, inflamed
or maturated surfaces bealed and restored to their natural tone, a cure is
impossible. Fritschi's Prussian Cough
Syrup accomplishes these objects. The
mucus and muco-pus which are the consequence of Lung Disease, are thrown off
by it, while at the same time it soothes
and invigorates the weakened tissues.

"LIFE FOR THE LUNGS." For coughs, colds, influenza, bronchial difficulties, tightness of the chest, hoarseness, sore throat, trachitis, inflammation of the lungs, difficulty of breathing, picurisy and all disorders of a pulmonary nature, it has never been equaled.
